

Shellfish Harvest Areas Classification

Open: These shellfish harvesting waters are open to harvest throughout the year.

Conditionally Open: These shellfish harvesting waters are open to harvest for only a portion of the year. These areas could be located near a seasonal marina or the water quality may dictate that shellfish harvesting is only safe during cooler periods of the year.

Condemned: These shellfish harvesting waters are designated as prohibited or restricted. Prohibited waters are not open to any shellfish harvest. Restricted waters may be available for shellfish harvest subject to certain conditions on harvest procedures or post-harvest handling.
